Colomendy

Last week, year 6 pupils enjoyed a fantastic time at Kingswood Colomendy in North Wales. During their five days away, the children enjoyed a multitude of activities which included: kayaking, raft building, abseiling, climbing, high ropes, fencing, orienteering and buggy building but to name a few! There was also the added excitement of staying in Glamping tents!

Thank you to the children for the positive way in which they conducted themselves throughout the residential and to all the staff who supported the visit.

Parking Outside School

Please refrain from parking your car on the yellow zig-zags outside the school. A number of parents have also been parking over the drop kerb where the zig-zags are clearly marked. Parking here causes increased danger for families attempting to cross the road and greatly reduces the space on the public footpath.

The **CO-OP** next to the school has agreed for parents and carers to be able to use their car park whilst the children are dropped off and collected. We kindly request that parents who are driving make use of this to ease congestion on Barlows Lane.

E-Safety Notice

Schools in the city have been contacted regarding concerns about an online game and the potential negative impact its content may have on both primary and secondary school age children.

The game is called Doki Doki Literature Club and is also known as Doki Doki. It is available to download for free and it does warn that it is not suitable for children. However the graphics are clearly aimed at young people.

We are notifying parents and carers so that you can monitor and ensure that your child is only accessing age appropriate games at home.
