

Friend or Foe Chapter 5

Read the statements and decide whether they are arguments for or against helping the Germans. Either cut them out and sort them under the headings 'For' and 'Against' or use them to help you fill in the table.

They saved David's life	People will stop laughing at them and calling them 'townies'	They could have been the ones that shot down David's Father	They are bombing and killing people so shouldn't be trusted	The Germans need food and blankets	It's not the German's fault, they are doing as they are commanded
If David and Tucky don't help, they will die	You can't turn on someone who has saved your life	If they help the Germans, they would be letting their own country down	Ann and Mr Reynolds will be pleased if we give the Germans up	They seem kind as they dried David's wet clothes and gave him an overcoat to keep warm	There are casualties on both sides during a war
