# Wild Plants

Today we are learning about wild plants.

What do you think a wild plant is?

Are our beans wild plants?

# Wild Plants

A wild plant is one that grows by itself.

A wild plant seed grows where it falls.

It doesn't need to be planted.

It doesn't need to be cared for as it grows.

If a wild plant grows where it is not wanted, it might be called a weed.

Can you think of any weeds you know?

We are going to look at some common wild plants.

# Common Wild Plants

**These are dandelions.**

They have bright yellow flowers.

They have fluffy white seed heads.

Some people like to blow the seeds and make a wish!

# Common Wild Plants

**These are daisies.**

They have white petals with bright yellow centres.

They grow in the grass.

Sometimes, people use them to make daisy chains.

# Common Wild Plants

**These are buttercups.**

They have shiny  
yellow petals.

They have feathery leaves.

You might have played a  
game where you hold one  
under someone's chin to see  
if it shines yellow!

# Common Wild Plants

## **This is clover.**

Clover has white or pink flower heads.

It has leaves in groups of three.

Some people think it is very lucky to find a four leaf clover!

# Common Wild Plants

**These are nettles.**

They have jagged, prickly leaves.

They have tiny green-white flowers.

Be very careful not to touch them, they will give you a nasty sting!

# Common Wild Plants

**These are brambles.**

They have very prickly stems.

They have white flowers.

They can grow very big.

In the autumn, brambles grow blackberries!

# Common Wild Plants

**These are dog roses.**

They have long  
thorny stems.

They have sweet smelling  
pale pink flowers.

In the autumn they grow  
big red berries called hips.

# Common Wild Plants

**This is ivy.**

It has heart shaped or three pointed leaves.

It is an evergreen.

It climbs on trees and walls, or creeps along the ground.
