

Consider a time when
you have shown you
are responsible by...

Protecting the environment

Helped someone else

Showed respect

Demonstrated
gratitude

Stood up for someone
who needed support

Said 'no' to a bad
decision

Donated an item,
money or time

Took measures to stay
safe in the community

Imagine you could program a robot to become the ultimate responsible citizen. Design your robot and label it with the qualities you think it would need to achieve this.
