

YEAR 3: UNIT 3

Coast Detectives

Can you be a Coast Detective?

Try to spot and explain the similarities and the differences between 2 photographs.

Are these photographs of the same place?

What is similar?

What is different?

Can you explain what has happened?

Are these
photographs of the
same place?

What is similar?

What is different?

Can you explain the
changes?

Are these photographs of the same place?

What is similar?

What is different?

Can you explain what has happened?

Are these photographs of the same place?

What is similar?

What is different?

Can you explain what has happened?

How can you tell that these photographs were taken from about the same position?

Why do they look very different?

What has happened?

Is this Marina
affected by the
tides?

How can you tell of
it is or if it is not?

These photos are both of Orcombe Point, Exmouth.

Do they explain why there is a flight of steps on the corner?

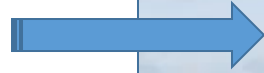

Are these photos of the
same stretch of coast?

What story do they tell?

This photo is of part of the Exe Estuary at low tide.

Draw a picture of what the view would be like about 6 hours before, or 6 hours after, this photo was taken.

Can you create a geographical time line?

Draw pictures of what this view would be like before and after this photo of the Exe Estuary was taken.
